

LIBRARY CARD POLICY FOR TRANSIENT PATRONS

Patrons who live within our library district who do not own or lease the premises in which they live shall be eligible for library cards but they must have their library cards renewed yearly on the anniversary of their application, except school age children attending a Jericho Public School, who will have their cards renewed at the beginning of each school year in September.

All applicants must have at least two forms of identification, with one form showing legal address for service.

Transient patrons who have a valid library card shall be entitled to the same benefits and use of the library facilities as all other valid cardholders.
